July President's Message

Hello, all hoping this finds you enjoying the beautiful summer that is finally here. This month we will be having a potluck and our annual summer auction. So please dust off the recipes and create a few new ones to share with your fellow rockhounds.

It will be a bit hot I am sure so be sure to bring your chairs, to follow the shade, along with your own table service. The club will be providing the water, ice, and ice cream. I hope you will all join in on the fun bring those casseroles, your auction donations and come on out. We will be meeting in Memorial park just like last month only we will be starting at 6:30pm.

Ed will be our Auctioneer and he will have helpers for the bidding. In the past, we have had all kinds of different donations so nothing is off the table. All we ask is that you please wait to pay for your treasures until the auction is over as it makes it hard for Roxanne to keep the bids and people straight.

John has been busy getting your field trip to Wagontown for petrified wood. He will be meeting you at the Chevron station on the corner of Highway 55/95 at 7am leave at 7:30am. Be aware that others meet here as well so be sure you are with the right group. This is a nice area as there are some trees for shade and makes a nice digging area as well as picnic spot. It will be hot so be sure to bring plenty of water, sunscreen, and anything else for your comfort. As it gets hotter the fire danger rises, so be aware of where you are parking so that the exhaust systems don't catch the grass on fire. If you smoke be sure to either smoke in your vehicle or at the very least, be aware of the hot ash as it doesn't take much to create a serious situation.

The Club and Board appreciates all of your service and donations in supporting your club. Without your dedication and generosity, we would not be able to have the fun that make our events and enjoyable and interesting time in our lives. Thank you!!

I look forward to seeing you all at 6:30 on Wednesday the 19th until then keep on rocking.

-Willa Renken OGMS President

2024 Show Dates: "GEMS AND MORE IN '24", March 2nd & 3rd O'Connor Field House, Caldwell, Idaho

Chris and I have been enjoying the summer weather, hope all of you have as well. We have a wide range of interests focused on nature and history... and of course, rocks and adding to our many collections.

We will soon start working with Channel 6 on a remake of our TV commercial for "Gems and More in '24". Sue Cassidy has done a great job documenting the 2023 rock show and her photos will help bring life to the new commercial. The ideas placed in our current TV spot by Darell Ehlers will continue in the new remake. Thanks to both of you.

Covington Engineering has overhauled the club's (2) forty-pound tumblers and they are now ready for another few years of service. Harald Villarreal will soon begin the tumbling for OGMS. Clarence Wright (who has tumbled rock for the OGMS for many years) has offered to meet with us to explain his process, and to share his knowledge of tumbling. Thanks Clarence.

During your rock collecting travels this summer, please remember to set back a few of your findings for "GEMS AND MORE IN '24".

OGMS stills pays \$120 per five-gallon bucket of nicely tumbled rock that we can use for the show grab bags.
STAY SAFE AND HAVE FUN.

In Loving Memory —Sylvia Foreman

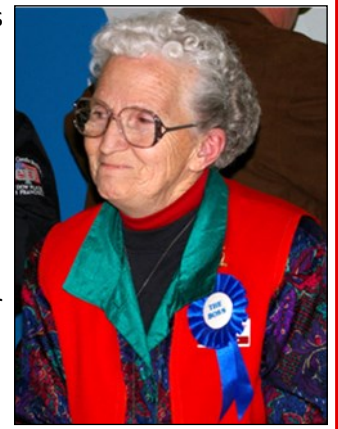

Sylvia was truly a dedicated member of our club. She was always available to help out wherever needed. When Gene and I started going to Arizona in the winter, Sylvia and Bill (her husband) stepped in and took over the job of editor of the Owyhee Gem newsletter. With no prior experience, and a typewriter and printer to work with, they gave us the club newsletter for over ten years. She was also in charge of the special display area and the front desk at the annual show for many years. And, she was also the Sunshine Lady for the club for a while.

She was an excellent seamstress making many wedding dresses and teddy bears. She liked the furry look for the teddy bears so that was the favorite material, however denim worked very well. Canning and making Christmas candies using walnuts from their trees will be remembered by many.

Sylvia wasn't interested in just letting Bill do all the rock work. While his specialty was cabs and spheres, she learned how to create with silver to make rings and pendants. She had a workshop in her home for whomever wanted to join the fun. Ideas were shared and help as needed. Next on her list was faceting. She turned out many fine gems and shared with friends.

Many field trips were taken with the OGMS group to find rocks suitable for spheres or cabs. Sylvia would get excited over finding a "just right" treasure.

So goodbye Sylvia, and thanks for being in our lives! - Submitted by Freda Babbitt
