October President's Message

Hello! Are you ready for fall? It would seem it is here and soon we will be wondering where this year has gone again. This month is our annual elections so if you were contemplating running for an office here is your chance. We do have a full slate for the next year but you can always be nominated from the floor for any position. The other point of voting is your dues need to be paid up in order to vote, so Kathi Larson will be taking dues on that night.

Several things have come about since last we met. The first being our meeting place. We have found a nicer environment for our meetings since several of the members expressed issues with the smoke and the room being way too small for all of us to sit comfortably. We will be meeting at the Best Western across from the Sage Truck Stop. Take exit #29 head west and behind Burger King you will see the Best Western. When you come through the doors you will be directed to our meeting room. I am hoping this will work out much better for all of us and I look forward to seeing you all there. The meeting will begin at 7:30pm on October 15th.

This month's refreshments will be provided by the singles and as it is October traditionally we have had doughnuts and cider. Ruth and Jim will be bringing the cider so if those of you who are singles could please bring goodies I know we will all be most appreciative. As you all know my favorite part is the popcorn balls so I always look forward to October.

I have secured the room for the Christmas party at Orphan Annie's for December. The cost will be a total of \$15.50 so your half will be \$7.75 each except the life members and the club will pick up their costs. If you are in need of a ride for the party just let one of us know and we will see to it that you are included. This is one of the fun times that we get to share with each other so no one should be left out. We will let you know who to give your money to at the meeting and who will have the signup sheet so we can provide the restaurant with a head count.

This month's field trip will be to our "Big Egg" claim for the digging of thunder eggs. We will be meeting at the Marsing Park just as you cross the Snake River at 7:30am leave about 8am. Ithel will have more information for you at the meeting.

Susan says the grab bag sew off is coming along nicely. There has been about 1500 bags turned in so far. If you are wanting a beautiful new sphere keep on sewing as the person with the most gets the grand prize. This really helps with the bags we fill each year for the show as it takes about 1000 each year. If you need material let me know and we can come up with some for you. I am not much for sewing so really commend those of you who are. Keep up the good work and don't forget we will need more trinkets for the wheel of gems and sand dig. Thanks again for all you do without your efforts we would not have as great a club as we do!!!

On that note I look forward to seeing you all there on October 15th at the Best Western take exit #29 then turn west on Franklin and on your left will be the Hotel at 908 Specht Ave, Caldwell. See you there!!!

-Willa Renken, OGMS President

October Birthstone—Opal

October's birthstone treats the eye to an explosion of shimmering colors. The Opal derives its name from the Latin word "opalus," meaning precious jewel. Prized for its unique ability to refract and reflect specific wavelengths of light, the Opal was called "Cupid Paederos" by the Romans, meaning a child beautiful as love.

Ancient monarchs treasured Opals, both for their beauty and for their presumed protective powers. They were set into crowns and worn in necklaces to ward off evil and to protect the eyesight. These gemstones were also ground and ingested for their healing properties and to ward off nightmares.

The Opal dates back to prehistoric times. It is a non-crystallized silica, which is a mineral found near the earth's surface in areas where ancient geothermal hot springs once existed. As the hot springs dried up, layers of the silica, combined with water, were deposited into the cracks and cavities of the bedrock, forming Opal. This gemstone actually contains up to 30% water, so it must be protected from heat or harsh chemicals, both of which will cause drying and may lead to cracking and loss of iridescence. Opal must also be guarded from blows, since it is relatively soft and breaks easily.

Alternate Birthstone: An alternate birthstone for October is Pink Tourmaline.

The stamps sold at the NFMS brought in \$14.00 a pound which 16 pounds were sold. These stamps had been separated to bring the most for the special stamps. The next NFMS Show will be held in Ogden, Ut. April 10-11-12, 2015, more to come later. SAVE YOUR STAMPS. The Stamp lady was VERY HAPPY with the old stamps and how they were separated. THANK YOU ALL FOR YOUR HELP. The show was good.

Bring your postage stamps to this month's meeting. Remember to ***cut ½ inch all the way around the stamp***. The money raised will go to help support cancer research. Thank you all for this. It helps others and it might just help someone you know.

The State of Washington has closed the Lolo forest to collecting of Smoky Quartz, due to problems of persons not filling in the holes. Also, a permit is required for collecting on forest lands. Thanks to Bill Anderson for his help at the Caldwell Library, and to all that gave material for us to share with them, THANK YOU.
