August President's Message

Happy Fall everyone. It would seem that fall is upon us and as the year goes winter will be here faster than we like. I'm not sure why summer slips away so fast but this one sure has. This month will be our **election** month. Be sure to renew your memberships so you can vote if necessary. We do have a full slate of officers nominated and they are as follows:

President- Willa Renken, Vice President-Roxanne Franklin, Secretary-Chris Deveau, Treasurer-Debbie Lawrence, Show Chairman-Kathy Larson, Asst. Show Chairman-Darell Ehlers, Federation Director-Ed Moser, Editor-Margaret Nelson, Fieldtrip Chairman-Robert Murphey, Asst. Fieldtrip Chairman-Dale Rawson.

We encourage anyone that would like to be nominated from the floor. If you would like to run for any of the above officers' positions make it known when we hold the elections this month.

I hope you are all busy sewing those **grab bags** as our contest is in full swing. The person who sews the most will get first choice of the beautiful spheres that Red Larson is donating for our contest this year. The presentation will be at the Christmas Party, which is in 73 more days. If you lack material let us know and we'll see that you get some.

Kathy is also looking for a **showcase chairperson**, so if you can help in tracking and organizing the showcases for this year's Gem Show please let Kathy know. As always, keep tumbling, critter making, and making items for the wheel of gems. Our Annual Gem Show is only six months away.

This month will be our last **fieldtrip** for the year and it will be to the Haystack Butte area. Robert has ask us to meet at Owyhee Junction by the little store at 8 am, leave at 8:30am. This trip will be on the 26th, which is the second Saturday after our General Meeting.

Bill Anderson will be leading our **Fall Roadside Cleanup this year on Nov 2nd**. We will be meeting at Walter's Ferry Boat launch at 9am to start the cleanup. If you can help, there will be a signup sheet at this upcoming meeting. Bill will be picking up the signs, safety vests, and garbage bags for this. He will be taking you on a surprise field trip afterwards as well. The club will provide water. I hope you will take the time to lend a hand in this event.

I look forward to **seeing you all on October 16th at 7:30pm at the Boone Science hall**. Our presenter will be Coyote (yes that is her name!), a geologist who volunteers at the Idaho Museum of Mining and Geology. She will talk about the formation of granite in Idaho.

These members listed are currently paid up through Oct. 2020 - Matt Davis, Michael Weiskircher, Pat McConnel, Tamie Kennedy, Dan Doersch, and Debbie Lawrence. Just a friendly reminder for those who have paid in advance.

Willa Renken, OGMS President

Hello All, Our September Field trip to Blue Egg Claim was a success. There were 40+ people to include a few guests from other clubs in Idaho and Oregon. We loaded up at the Homedale Park in our 4x4 vehicles and ventured out into the Oregon desert east of Succor Creek to look for the Oregon State Stone, The Thunder Egg. The eggs we were looking for in particular are filled with Blue Opal. The Blue Egg club claim is one that has been passed from miner to miner and

then given to the club for a great place to dig for the stunning Blue Eggs. Many of us dug and found Eggs with great color to include Blue, Orange and Red opal inside and even a few with what appeared to be fire in the opal. Mother nature provided us with great weather and the driving conditions were better than expected with only 1 big mud puddle to navigate. Even our Subaru owners made it in without losing a muffler. There were several dogs as well and I believe they had a great time too, greeting everyone and playing in the pond. There were a lot of Eggs dug and donated to the Club for our silent Auction and we want to say Thank You to those that were so generous in doing so.

We have one more Field trip this year. Haystack Butte for Red Jasper. The time and meeting location has changed to accommodate those that want to attend the NFMS Expo in Lewiston. The trip will be on October 26th and we will be meeting at the Owyhee Junction at 8:00 AM leaving at 8:30 AM. We will be on BLM land looking for Red Jasper, but Agate and petrified wood can also be collected nearby. Hope to see you all there.

As a reminder, I will have the **Trip Suggestion sheet on the front desk** at the October monthly meeting for everyone to add their suggestions for next year's field trips. If you have a place you would like to go that we have not visited in some time or just a new area you have heard about, please add it to the list so we can build our schedule for next years outings. Overnight Trip suggestions welcome.

VICE PRESIDENTS CORNER

Leave a Rock Take a Rock

If you have lucked out and found some nice rock bring one to our meeting. You can leave the rock on the table and anyone who brings one can take a rock. At the end of the meeting if your rock is still there take it home with you. If everyone brings something to trade each month we can have the benefit of others' successful trips.

Show Chairman

Thoughts for Silent Auction

As you go out hunting rocks, please keep in mind our yearly show's Silent Auction!!

If you find a nice sample for our auction, place it in a bucket and label the bucket "OGMS".

By the end of the year, your bucket should be full of great rocks and ready to donate for our show.

It is amazing how just a few rocks can add up if every "rockhound" would contribute!

Editor's Note

Because of an issue in the past we are replacing the decorative graphics in the newsletter with new licensed images from a library we will purchase. The fun look and feel will come back as we get the old ones replaced.

Orma J. Smith Museum of Natural History

Please save the postage STAMPS for cancer research and bring to this month's meeting. Remember to **cut ½ inch all the way around the stamp**. Thanks to all for your help. It helps others and it might just help someone you know.
